

September 17, 2019

I just called and shared this property is now going off market and ready to rent at \$1300.-
\$1500./month

it can be furnished and because it burns logs as primary heat it is rural living type care for space.

A sweet log home on the river , as a massage therapist myself , i know this place hosts a healing
vibe for certain.

it is in Cherryville and , and is 40 min. from Vernon.

perhaps a student can see value in this type of space while they are in school.

As the property manager to the space, a creative healing learning space can also be a
consideration, as

I am vetted in the career of massage therapy for the last 26 years.

So I also consider it as a learning study /teaching space for whom may be part of this plan.
thank you in advance for sharing this to the student body.
